PROGRAM NOTES

Most of us have a box (or several) of old photos that is stored in a closet. Wouldn't it be nice to have those photos organized and digitally preserved? Well, Sue Thornton, can make that happen. Sue's business, Photo Organizing Solutions, can preserve those memories and create digital photo memory books that are easily shared with others. Additionally, she can imprint a photo (or photos) on just about anything – pillowcase, mug, calendars, etc. Get rid of the unorganized photo clutter by letting Sue put her talents to work.
