So what is St. Patrick's Day all about? Dr. Karen Allen shared the results of her research concerning this day that has become a major day of celebration. Saint Patrick was a fifth-century Romano-British Christian missionary and bishop in Ireland. Known as the "Apostle of Ireland", he is the primary patron saint of Ireland, although he technically was never officially canonized as a Saint. Several legends are attributed to St. Patrick including: (1) Saint Patrick teaching the Irish about the doctrine of the Holy Trinity by showing people the shamrock, a three-leaved plant, using it to illustrate the Christian teaching of three persons in one God and (2) Banishing all snakes in Ireland by chasing them into the sea after they attacked him during a 40-day fast he was undertaking on top of a hill. No matter who or what he was, we now have a special day that encourages drinking a lot of green beer.
